

Honorable Members of the Judiciary Committee,

**I OPPOSE Bill 6355** An Act Concerning Risk Protection Orders Or Warrants

Protection Orders or Warrants. By supporting this update to this version of the "Risk Protection Orders" removes one of the protections of ensuring that the allegation is based in fact. Removing those 2 officers that must complete an investigation first and make sure it is credible along with making sure the 14th Amendment was used to ensure that Due Process was used and not taken away, which this so called up date will do. Laws must be made with all ramifications taken in account. This does not make anyone safer just removes Rights.
